

SPECIAL THANKS

This project represents a labor of love by wonderful people and organizations all over Maryland who offered their time, talent and compassion to make this book a success. Most importantly, to the people who opened their homes and shared their personal stories about how access to health care really does make a difference, I humbly thank you. And none of this would have been possible without the leadership of the O'Malley/ Brown Administration and the General Assembly members who enacted landmark legislation to expand health care to over 200,000 Marylanders and counting. Special thanks to House Speaker Michael Busch and the lead legislative sponsors of the primary health care expansion measures: Delegate Peter Hammen, Delegate Sheila Hixson, Delegate James Hubbard, Senator Verna Jones and Senator Nathaniel McFadden.

Thank you to Chet Burrell, Maria Tildon and CareFirst for the generous grant that funded this project. To Ron Pollack, Kathleen Stoll, Nancy Magill, Peggy Denker, Elizabeth Prescott and the entire Families USA staff, thank you for your years of support and especially for the design and editing assistance for this book. To Graden Laycook and Mosaic, thank you for your patience and suggestions which moved this project from start to finish. Thank you to the Maryland Association of Counties for providing time at your annual conference to publicly release the book. Thank you to Governor Martin O'Malley, House Speaker Michael Busch, Representative Elijah Cummings, and Chet Burrell for providing the book's introductions and for making access to health care a priority. A special thanks to Carolyn Lowe for her critical editing skills.

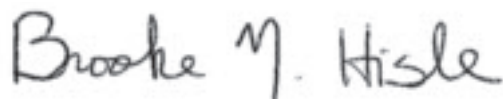

A special thanks goes out to the committed foundations that support the work of the Health Care for All! Coalition including, the Robert Wood Johnson Foundation, Aaron & Lillie Straus Foundation, Abell Foundation, Annie E. Casey Foundation, Baltimore Community Foundation, Consumer Health Foundation, Fund for Change, Jacob & Hilda Blaustein Foundation, Jewel Foundation, the Morton K. and Jane Blaustein Foundation, Nathan Cummings Foundation, Open Society Institute, and the Zanyvl and Isabelle Kreiger Fund.
