

Carpenter's Hands

Every Second Saturday

Carpenter's Hands is a ministry of LifePoint Church that seeks to help others in practical ways. We rehab homes and do construction projects for those in need, especially the elderly, single-parent families and local Christian ministries. Carpenter's Hands typically does projects on the 2nd Saturday of the month.

Not an expert carpenter? Come anyway. Part of Carpenter's Hands mission is to love the family and share Jesus with them, both through physical work and just listening to their stories. There is always a place for a willing heart.
